NEW REGISTRATION OVERVIEW FOR FALL 2008

(Registration = Selection of classes and payment)

General Registration (GR) involves having students select and enter their classes and pay their bills. Although the Office of Enrollment Management manages the registration process, GR depends on the collaborative efforts of other campus units, especially the offices of Financial Aid and Student Financial Services.

New freshman students entering in Fall 2008 were offered an opportunity for selecting and entering their classes before classes begin in August:

- While on campus to participate in pre-orientation and pre college programs in May and June
- While on campus during orientation from **August 18th through 20th**

New freshman students, who decide to register through the web, should follow the instructions that are included in this document. New freshmen can register between 9AM and midnight EST during the scheduled registration periods. Once they arrive on campus, new freshmen students can speak directly with advisors to discuss the appropriateness of and/or modify their course selection.

All other new students (transfer students and graduate students) and former students returning who are entering in Fall 2008 must register while on campus during orientation. They must meet with their academic advisors prior to registering. Advisors will be available beginning Monday, August 18th.

If you have any questions, please contact the appropriate office(s) listed on page 5 or your school/college.

COURSE SELECTION

Your school/college web site provides information that will help you plan your academic program, register for courses, and answer questions about academic procedures. **It is your responsibility** to check with your counselor/advisor or other contact person whenever you have questions about academic matters. Your success as a student depends in part on how well you listen to your advisor's or counselor's advice.

If you are unsure whether your final high school transcript has been received by the University, please contact EM/Admission via e-mail at Admission@howard.edu. If you have other questions, please contact the appropriate office(s) listed at www.howard.edu/academics.

WORKSHEET

At the end of this manual is a schedule planning worksheet, which will assist you in developing your class schedule. Print out the worksheet and carefully complete it as you read this manual. Also jot down questions as they arise. Be sure that you do not select classes that meet at the same time, and be sure to record the correct CRN's (course reference numbers) for the classes that you select.

IMPORTANT NOTE

Be sure to have your Howard University ID number with you when you contact us.

PLACEMENT GUIDELINES

ENGLISH: The SAT II Writing Test is used for placement purpose.

- If you scored 440 or above on this test, place yourself in English 002
- If you scored below 400, place yourself in CAR-Verbal
- If you have not completed the SAT II test, place yourself in English 002.
During your first week of classes the English department will administer a diagnostic examination to place unevaluated students at the appropriate level.

MODERN LANGUAGES: The following chart is for students who studied the same foreign language in high school grades 9-12.

Year(s) of High School Study	Placement Level
0 – 1 Year	Language Level 001
0 – 2 Years	Language Level 002
2 – 3 Years	Language Level 003
3 – 4 Years	Language Level 004

Any student may petition to take an exit examination to gain exemption from the foreign/second language requirements in the College of Arts and Sciences or in any other College or School that has a foreign/second language requirement. The dates of the exit examination will be set by the department and will be announced at the beginning of the semester.

International students should contact the departmental Language Section Coordinators and/or the Department Chairperson when they arrive on campus if they have any questions about appropriate placement.

MATHEMATICS: All students are required to take the Math Placement Examination prior to coming to campus in the fall. The results of this examination will be used to facilitate placement in the appropriate math course. To obtain instructions and to take the exam, go to www.mpe.howard.edu. Your scores will be immediately available to you on the web once the examination is completed. If you feel that your placement as indicated by the examination is inappropriate, contact your school/college.

ADVANCED PLACEMENT: Students who received a score of 3 or higher (except biology which requires a score of 4) on any of the Advanced Placement (AP) examinations of the College Entrance Examination Board may be eligible, in the areas of each examination, for advanced placement credit toward graduation as determined by the appropriate department. Please consult your counselor/advisor regarding specific courses and credits that you may be eligible to receive.
