NACELink is Now BisonCareerLink: Activate/update your profile today and gain access to thousands of job and internship opportunities

This semester at Howard University, CEDAR hosted over 150 employers and graduate schools during Career Exploration Week in the Blackburn Center Ballroom. We had an amazing showing of the nation’s top companies and close to 2000 of Howard University’s best and brightest students over the course of three days. We hope that you had an opportunity to participate and take full advantage of the opportunity to explore your career options.

Now through November 22 several of the employers you met at the career fair will be returning to campus to conduct on-site interviews for internships and full-time employment to commence in May and June 2014. All interviews will be scheduled through BisonCareerLink – the primary job search and recruitment portal for Howard University students. So, to view and sign up for interviews you qualify for, you must activate and/or update your BisonCareerLink profile.

- **If you are a current student at Howard University who has never registered with CEDAR to use BisonCareerLink**, an account has been created for you automatically using your Bison.howard.edu account along with your student ID. All you need to do is activate the account and you will have immediate access to the thousands of internship and full-time opportunities in the system.
