

**HOWARD UNIVERSITY
STATEMENT OF FINANCIAL RESOURCES FOR NEW INTERNATIONAL STUDENTS**

Please review the following information carefully. Submit pages 2 and 3 to the appropriate admission office. Listed below are estimated expenses for international students at Howard University. Tuition and fees are listed for the academic year only (August – May) and do not include the summer sessions. You are not required to attend summer school. If you decide to do so, you will pay tuition based upon the number of credits you take. Living expenses listed are for a 12-month period for the student only and do not include expenses for your dependents. You should calculate an additional \$5,000 per year in living expenses for your spouse and \$3,000 for each child accompanying you.

When you complete pages 2 and 3 of this form, carefully review all financial resources available to you. Make sure that the total amount of resources is enough to cover the expenses for the school/college that you wish to attend. You should not depend upon employment to cover the costs of attending the University. Immigration laws allow students, who are in good academic standing and have enrolled for at least one calendar year to apply for a work permit to engage in off-campus employment. You may apply to the University for Financial Assistance, but you will compete with all other students who apply. **In reviewing your financial resources, you should not count on either employment or financial aid from the University.**

This information is provided as a guide only and should not be considered as a contract or binding by the University. The University reserves the right to change tuition, fees and other charges at any time.
