**SYMPOSIUM CHAIR:** William B. Lawson, M.D., Ph.D., DFAPA, Professor and Chair, Department of Psychiatry and Behavioral Sciences

**GOAL:** The goal of the program is to increase the awareness of ethnic differences of psychotropic medications and dosing as it relates to culture, psychosocial, and genetics.

**WHO SHOULD ATTEND:** The activity is designed for physicians, nurses, psychologists, social workers, counselors, other mental health providers and general health professionals.

**FORMAT:** Lectures and panels followed by questions from the audience.

**OBJECTIVES:** After completing this activity, participants should be able to:

- Identify the ethnic differences in treatment response and side effect profiles of psychotropic medication(s);
- Discuss cultural, psychosocial, and genetic factors that contribute to ethno-pharmacology; and
- Describe disparities in the dosing and availability of pharmaceutical agents.

**DISCLOSURE:** Full disclosure of speaker relationships will be made before or during the activity as needed. Those expecting to discuss “off-label” drug usage must identify that portion of the presentation as being related to “off-label” use of drugs.

**DISCLAIMER:** Howard University College of Medicine/Howard University Hospital and their staffs are not responsible for injury or illness resulting from the use of medication and modalities discussed during this educational activity.

**CME CERTIFICATION REGISTRATION:** To receive credits, each physician must register; sign in, complete and return the Record of Attendance and Evaluation form to the registration booth.

**SYMPOSIUM PLANNING COMMITTEE**
