

How to Configure Pulse Secure to Connect to the Howard Network

Please follow the steps below to configure Pulse Secure VPN client to access the Howard network, **AFTER** downloading and installing the Pulse Secure application. These instructions are the same for Mac users.

To download the VPN client, go to secure.howard.edu and sign in, then click the link **Download VPN Client - Pulse Secure**, in the middle of the page. Select the appropriate installation based on your computer-type. Contact the **ETS Help Desk if you are having any issues: 202-806-2020.**

1. Click the **+** sign to add a new connection.

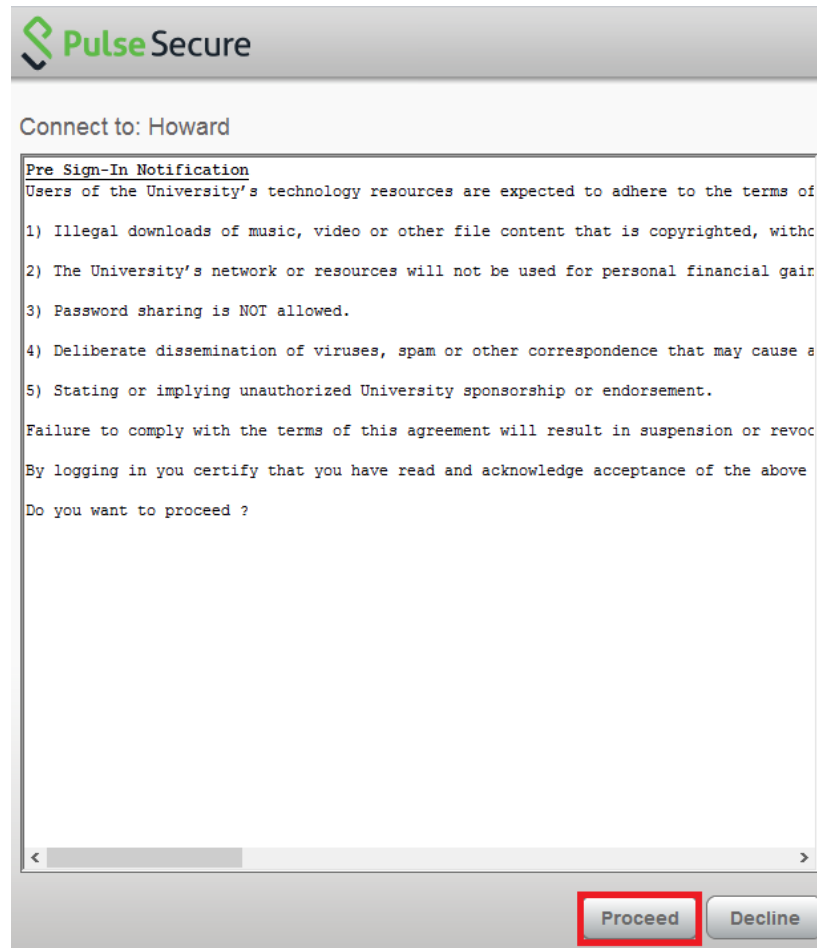

2. Enter the information as indicated below and click **Connect**.

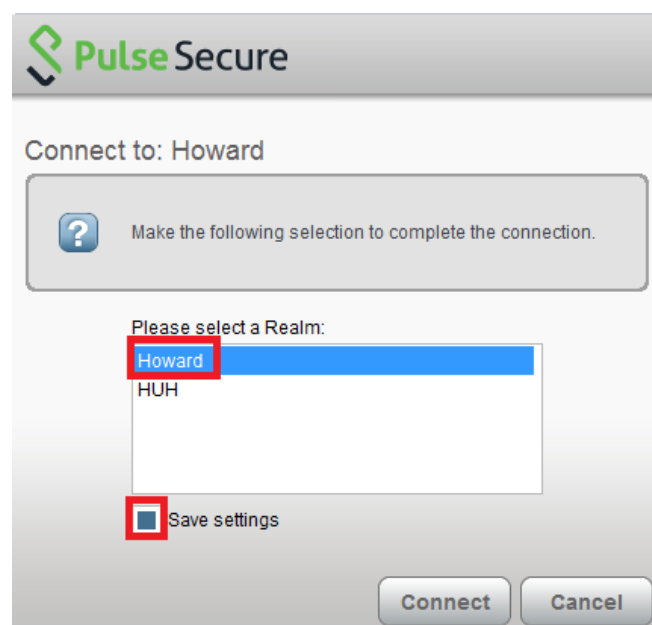

A screenshot of the "Add Connection" dialog box. The dialog has a title bar with "Add Connection" and a close button. It contains the following fields and controls:

- "Type:" dropdown menu with "Policy Secure (JAC) or Connect Secure (VPN)" selected.
- "Name:" text input field containing "Howard", highlighted with a red box.
- "Server URL:" text input field containing "secure.howard.edu", highlighted with a red box.
- At the bottom, there are three buttons: "Connect", "Add", and "Cancel". The "Connect" button is highlighted with a red box.

- When prompted with the Pre Sign-In Notification, review the warning, then click Proceed if you comply.

- Select the Howard realm, and select "Save Settings", then click Connect.

5. When prompted, input your network credentials; your **username** and **password**. (Same credentials you used to sign into secure.howard.edu).

The image shows a Pulse Secure login dialog box. At the top left is the Pulse Secure logo. Below it, the text "Connect to: Howard" is displayed. A grey rounded rectangle contains a question mark icon and the text "Provide the following credentials to complete the connection." Below this are two input fields: "User Name:" with a text box containing "Enter your username", and "Password:" with a text box containing ten dots. Below the password field is a checkbox labeled "Save settings". At the bottom right are two buttons: "Connect" (highlighted in green) and "Cancel".
