Please indicate the item(s) requested by listing the number(s) to the left of the desired software title:

The software that is obtained as part of the MSDNAA Program is restricted to research, instructional and or non-commercial research purposes only. **Research purposes** are defined as conducting not for profit research projects. **Instructional purposes** are defined as conducting educational classes, labs or related programs for teaching and / or learning the Products or concepts related to the Products that are part of this program (for example, classes on software development, introduction programming languages, systems design and analysis, relevant mathematics courses, relevant science courses, or relevant engineering courses).

Required Steps to Receive MSDN-AA Software:

1. Complete all items above.
2. Read the MSDNAA End Users License Agreement.
3. Sign this document below:
4. Bring the completed form to the iLab Help Desk and present a valid Howard Photo ID or fax the completed form to the iLab at (202) 319-2654.

Allow 3 business days to process and produce requested software. Present your valid Howard Photo ID when you pick up the software at the iLab.

**Signature Required:

I certify that I have read and will comply with the MSDN-AA End Users License Agreement (Orders without it will not be filled.)
